Education

Western University

Sep 2022 – Apr 2026

Bachelor of Software Engineering

London, ON

- Courses: Software Engineering Practice, Applied Machine Learning, Operating Systems, Computer Architecture, Model-Based Programming, Algorithms and Data Structures, Intro. to Software Engineering

Work Experience

Yoke: Faith Together

Jan 2025 – Present

Founder and Solo Developer

Toronto, ON

- Built and launched a **Christian devotional accountability app** as a solo developer using **React Native**, **Expo**, **TypeScript**, **Supabase**, and **RevenueCat**; currently live on the **iOS App Store** with **100+** daily active users and Android launch in progress.
- Designed the **PostgreSQL** schema with row-level security and wrote **PL/pgSQL** functions for cross-timezone streak logic; shipped **10+** production releases using **EAS** and managed the full **App Store** and **Google Play** submission and compliance pipeline.

KGT Eyewear

Sep 2022 – Present

Digital Operations and E-Commerce Manager

Toronto, ON

- Expanded the company's **Shopify storefront** from a B2B-only platform into a **hybrid B2B and B2C commerce experience** as the sole developer, building dual account flows, custom **Liquid** pricing logic, and automated customer tagging via **Shopify Flow**.
- Owned the full **digital operations** and product catalog for a **Canadian eyewear importer**, executing a complete platform redesign to unlock a new retail revenue channel.

Projects

Nimbus Labs | *React, TypeScript, Vite, Bun, Hono, Gemini API, TanStack AI, WebXR*

Sep 2025 – Apr 2026

- Senior capstone project that placed **Top 5 in the university competition**, featuring a **web-based 3D model viewer** with a real-time **WebGL viewport** for uploading, decomposing, and inspecting complex models.
- Added a **conversational AI assistant** powered by **Gemini API** and **TanStack AI** along with **WebXR** support so users can explore models in a browser-based VR environment.

MarketMind | *Next.js, TypeScript, Node.js, Express, PostgreSQL, Prisma, FastAPI*

Dec 2025 – Apr 2026

- Built an **AI-powered stock research platform** with a **multi-service backend** across Next.js, Express, and FastAPI, enabling investors to analyze equities and assess portfolio risk through a natural language interface.

Family Feud Event Platform | *Next.js, React, TypeScript, Supabase, Tailwind, Vercel*

Jan 2026 – Mar 2026

- Built a **full-stack game hosting platform** deployed at a **200 plus attendee** banquet and adopted by multiple student clubs, with organizer dashboards and role-based auth via **Supabase**.

Leadership

Korean Christian Fellowship (KCF), Western University

Sep 2024 – Apr 2026

Vice President

London, ON

- Organized weekly campus events and cross-campus gatherings for **300 plus participants**, coordinating speakers, logistics, and volunteer teams across multiple campuses.

First Nations Outreach

Jul 2024 – Present

Youth Group Leader, Kenora First Nations Outreach

Kenora, ON

- Led volunteer teams during week-long outreach trips supporting **First Nations communities** in Kenora through youth programming, food distribution, and school restoration work.
